10 SEW-ON ARTICLES

Sew-on Articles are loose crystal elements that can be easily sewn either by hand, or with a standard domestic or industrial embroidery sewing machine onto any type of textile or accessory. Sew-on Stones come in two- or three-hole varieties, including round, oval, and triangle holes for use in a wide range of decorative applications for fine embroidery or even jewelry. Lochrosen are crystals with just one hole. Sew-on Articles have rounded edges on the hole entry and exit areas to guarantee thread protection. The assortment offers a great variety of colors and effects to turn textiles and fashion accessories into bespoke luxury items.
